

Friends Forevermore

All my life I've been a waiting
For a friend to come along anticipating
That you could be my friend, my friend forevermore

Is this day dreaming or are we flying
Like the birds up in the sky we'll soar so high
For you could be my friend forever, evermore

All my life I've been a waiting
For a friend to come along and we'd start playing
Then you could be my friend, my friend forevermore

Just like a song we'd be sing'n'
And danc'n' all day long oh what a dream
Then you could be my friend forever, evermore

Ohhhhhhhhhhhhh! what great adventure
We could climb the highest mountain and sail the deepest sea
With you beside me there is no dream to far
And nothing that we couldn't ever be

You'll see! won't we! go down in history!

It's very plain to me that together we will make our mark you'll see
It's got to be that together we'll go down in history
You and me we'll be best of buddies, all the world will see

We'll stick together thru any kind of trouble that we have.
There is no secret that you're always going to be my greatest pal

You will always be my pal
Always be my pal
Always be my pal
